

**K15U 0120**

Reg. No. : .....

Name : .....

**III Semester B.Sc. Degree (CCSS – Supple./Imp.)**  
**Examination, November 2015**  
**General Course in Computer Science/Computer Application**  
**3A11 CSC/BCA : ENTREPRENEURSHIP**  
**(2013 & Earlier Admissions)**

Time : 3 Hours

Max. Weightage : 21

**PART – A**

Answer **all** questions. Weightage for a bunch of **four** questions is **one**.

1. A periodic report can be used to
  - a) identify the problem
  - b) evaluate solutions
  - c) identify solutions
  - d) none of the above
2. Computing systems designed to supply supervisory information include
  - a) invoicing system
  - b) pay roll systems
  - c) process control systems
  - d) all of the above
3. Information about the items ordered (item description, price warehouse location etc.) is provided by the
  - a) order entry subsystem
  - b) Manufacturing information system
  - c) Marketing information system
  - d) None of the above
4. A characteristic of an MIS is
  - a) User - oriented information
  - b) Restrictions on the systems size to inhibit future growth
  - c) Priority for data handling over the output of decision - oriented information
  - d) All of the above

**P.T.O.**

5. The computer generation that triggered the explosion of interest in information processing was the

- a) first generation of computers
- b) second generation of computers
- c) third generation of computers
- d) none of the above

6. Duplicate copies of the data base are stored at all locations under

- a) partitioning
- b) polling
- c) replication
- d) data sharing

7. Which of the following is part of the decision making process ?

- a) problem identification
- b) alternative selection
- c) problem recognition
- d) all of the above

8. The Management information system provides timely and effective information to support decision making and other necessary management functions. Can you point out the sub-system which does not belong to the MIS ?

- a) Decision support system
  - b) Data communication system
  - c) Automated office system
  - d) None of the above
- (2×1=2)

#### PART – B

Answer **any 5** questions. Weightage **1 each**.

9. What are the major components of MIS ?

10. What are the different operations of information management ?

11. Explain the role of computers in the field of information system.
12. What are the important steps in system implementation ?
13. Explain the basic concepts of MIS.
14. What are the advantages of MIS ?
15. What are the characteristics of structured decisions ?
16. Explain the different type of information ? (5×1=5)

PART – C

Answer **any five** question. Weightage **2 each**.

17. What are the important technique of managing information overload ?
18. Explain the important characteristics of a system.
19. What are the important steps in controlling ?
20. Explain the important functional classification of MIS.
21. What are the important qualities of an information system ?
22. What are the advantages of data base system ?
23. Explain the features of transaction processing system.
24. What are the causes for project implementation failure ? (5×2=10)

PART – D

Answer **any one** question. Weightage **4**.

Maximum weighted grade point  $4 (W) \times 1(Qn.) \times 4(\text{Max. GP}) = 16$

25. Explain the structure of MIS based on management activity.
  26. Explain the different type of systems. (1×4=4)
-
